PRODUCT INFORMATION BULLETIN

Attention:	Lighting Sales Agents	Date:	Feb 24, 2009
CC:	Hubbell Canada employees		
From:	Eric Melanson		
Subject:	Prescolite Product Discontinuation		

Prescolite has invested much in the pursuit of providing you with the best balanced offering of recessed, track and surface mounted products in the industry over the past 5 years. These many product introductions, of which you have embraced, have resulted in the need to rationalize our offering to maximize our economies of scale in the manufacturing of those products. The purpose of this notification is to communicate the impending discontinuation of several products whose volumes have fallen to levels that cannot justify their continued existence.

All of the products planned for discontinuation will no longer be available beginning May 1, 2009. Efforts are in motion to bleed down inventory and component safety stock to minimize our exposure for excess inventory. We will continue to offer these products until that time, but please expect lead times that are not within our normal service levels during the two months leading up to May 1, 2009. We have provided crossover information where feasible and to assist your efforts converting any existing specifications you have. Note that items sourced from overseas may be discontinued in the system 1-2 months prior to May once we deplete the inventory.

Eric Melanson
